(retrieving list for this logged in user's session, must be logged in)

The screenshot shows a browser window with two main panels. On the left, a developer tools panel displays a JSON response from the URL `127.0.0.1:8000/mood/v1/moods/`. The response is a list of mood objects, each with an id, mood, details, and created\_at timestamp. On the right, the Chrome DevTools Network tab shows a request for the same endpoint, with the method set to GET. The request details, response headers, and request headers are visible.

**JSON Response (Raw View):**
